OBJECTIVE

Seeking a role as a front-end developer so I can use my thorough knowledge of programming frameworks and development software. I am a quick learner, Enthusiastic and have a team spirit.

PROJECTS

CRYPTO APP | REACT

I have made the Crypto app using Chakra UI, React Hooks(useEffect, useState) and React-Router and Fetching the real time data and rendering Items, Chart in the standard way and fully Responsive.

NOTE APP | REACT

Created a note web app using React which have beautiful UI with the DarkTheme and persist the previous note using Local Storage with Responsiveness.

TO-DO LIST WEB APP | HTML, CSS, JAVASCRIPT

Created a Fully responsive to-do list website where you can delete, add, marked the list.

WEATHER APP | REACT

A weather App which fetch the weather information from an API and show according to the City name.

PORTFOLIO APP | REACT

There are lots of other front-end Project i have made that i have mentioned in my Portfolio. You can see all the Project and there Code on my Portfolio.
